

Planning is essential for a smooth move.
Let us help you to simplify your move.

- Update the appraisal of your belongings for insurance purposes.
 - If you live in a building, please report the date of your move to the building administrator. Try to ensure there will be no other family moving that same day in your building.
 - Check if shades and carpets should be washed before being transported to the new home. Also don't forget to check if curtain accessories may be used in the new house.
 - Turn off the gas, washing and drying machines, lights, antennas and air conditioners.
 - Attach a "DON'T TAKE" label on objects that should remain.
 - Leave objects in their places. It will make packing easier.
 - Close all medicine and perfume bottles.
 - If you will not be present during packing, assign someone to the task you trust.
 - Turn off the refrigerator and freezer the day before packing and leave their doors open to avoid mildew and mold.
 - Check your new home voltage. In case of an international move, also check the cycles, plugs and TV systems.
 - If you are going to work abroad, check the visa requirements for the household goods. Our professional staff can provide information on this subject.
 - In case of an international move, follow FINK's documentation instructions to assure fast customs clearance at destination.
 - To avoid work in the kitchen during packing, plan a delivered or cold meal.
- Other reminders:
- Don't forget to report your new address to the electricity, gas, water and telephone companies, cable TV operator, bank, insurance company, and newspapers and magazine subscription deliveries.
 - Take some items with you: jewelry, passports, air tickets, money, traveler's checks, social security card, driver's license and other personal documents, as well as car documents.
 - Don't forget FINK packers are not specialized in hanging paintings or installing equipments and will not be able to perform these tasks.

Thank you for choosing FINK!
