# Ten easy ways to simplify your relocation

## 1 THE RIGHT SPECIALIST ✓

Relocation specialists can be a great help to harmonise the removal of families that are being transferred to Brazil. Assuring the right start can be the key for a successful residence in all aspects. We offer specialists to assist the relocation from the very start, before the family has even made any decision. From that point until the family is completely settled, we have all the necessary tools to assist you.

## 2 GETTING A VISA ✓

We can take care of all the process of obtaining a visa in Brazil, on temporary or permanent basis, including all the documentation and bureaucracy, while you and your family are busy in a cross cultural training, familiarisation trip or a language course, to prepare for the new experience.

## 3 CROSS-CULTURAL TRAINING ✓

Cultural differences may cause stress and it is very important that families come prepared for what they will find. If the relocation is correctly started, you can dedicate your time to work faster and your family will adapt sooner. Brazil is a unique country with an extraordinary mixture of cultures. We provide a comprehensive cultural training that will enlighten you and your family about life in this exciting country.

## 4 FAMILIARISATION TRIP ✓

During the familiarisation trip, you will see what you have learned in the cultural training for yourself. From getting to know the city in general, to being introduced to a tailored made guided tour of what the city can offer. A well organised trip will certainly help you to make the right choices from the start.

## 5 HOME SEARCH ✓

Where to live is top priority. By combining the home search with the complete planning package, our relocation specialists will not only take your type of neighbourhood requirements into consideration, but also analyse the distance to work and to school, proximity of the right club and other individual priorities. The big Brazilian cities offer many different options and careful orientation is a must.

## 7 ACTIVITIES ✓

What to do with your leisure time? Where to get to know the right people? What sports are available near your house? Are there special interest groups available? These and many other questions surely keep repeating themselves in your mind if you are moving to a new country. Let us show you several choices, or just tell us know what you like.

## 6 EDUCATION ALTERNATIVES ✓

There is a wide array of choices of international and local schools in the Brazilian capitals. Small cities have fewer options. The place you will chose to live will be importantly affected by the options of schools for your children (and, why not, spouse). At this point, our specialist will be fully aware of your requirements and will be able to guide you in this important decision.

## 8 FEELING SAFE ✓

Safety is a major concern for most of the families moving to Brazil, just as much as for those who live here already. One needs it put into the right perspective. Tips about what you can do to avoid problems and make you feel safer are crucial.

## 9 MEDICAL COVERAGE ✓

Becoming familiar with bilingual doctors, obtaining adequate medical coverage and finding the right hospital are part of your relocation specialist service. This chapter should be clear to any expatriate family before this need arises. During your stay, you might need medical procedures.

## 10 WELCOME ✓

Before you arrive and to start your new life, we have already gone through all the important steps to assure your relocation is a success. Now, all we have to do is to give you a very warm welcome at the airport and make sure you know we will be there for you throughout your permanence in Brazil.
